These qualities fostered my interest in pursuing Medicine. My hope is that the person receiving this scholarship would embody these qualities.”

Coordinator’s note: It has been an honor to have Idrees as my friend since our first year at KEMC when we were neighbors in Broome hostel. His ever-smiling face, his generosity with time and eagerness to share his knowledge with his friends have been a source of comfort for all his friends. I am indeed thankful to have good friend like him. Bashir Chaudhary
